INTERNSHIPS

Web Developer | InternPe

Apr 2025 - May 2025

- I successfully completed a Web Development Internship at InternPe, where I practiced applying my knowledge of HTML, CSS, and JavaScript to build and refine applications. This internship helped me strengthen my technical foundation, improve problem-solving skills, and gain confidence in implementing web development concepts. It also provided me with valuable exposure to working in a structured, deadline-oriented environment.

PROJECTS

Online Parking Slot Management System [GitHub](#)

Sept 2025 - Jan 2026

- Designed and developed a full-featured web-based system to manage and book parking slots in real time, reducing manual booking errors.
 - Implemented a user-friendly interface with real-time slot availability tracking and booking confirmation modules.
 - Applied object-oriented programming principles (encapsulation, inheritance) to structure backend logic efficiently.
- Managed relational database schema using SQL to store user data, slot information, and booking records.

My personal portfolio showcasing my projects, skills, education, achievements, and certificates.

AWARDS AND RECOGNITIONS

LeetCode Practice

Active Problem Solver - Successfully solved 40+ Data Structures and Algorithm problems, demonstrating a consistent commitment to improving technical problem-solving skills.

Participant | Smart India Hackathon

This program helped me strengthen my technical knowledge and practical understanding of the subject. It also added value to my learning journey by improving my skills in a structured way.

Participant | IWD Vizag 2025

Selected to participate in a 24-hour national-level hackathon organized by **GDG Vizag** at VIIT. Collaborated with a team to brainstorm and prototype a project under the theme "Redefining What’s Possible," gaining hands-on experience in rapid development and collaborative problem-solving.
